# **Independent Auditors' Report**

Board of Education Millington Municipal Schools Millington, Tennessee

## **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the general purpose fund, each major fund, and fiduciary funds of the Millington Municipal Schools Board of Education (the "School"), which are funds of the City of Millington, Tennessee, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the general purpose fund, each major fund and fiduciary funds, of the Millington Municipal Schools Board of Education as of June 30, 2017, and the respective changes in financial position and budgetary comparison for the general purpose fund, federal projects fund, and cafeteria fund, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

### **Other Matters**

### **Emphasis of the Matter**

### Financial reporting entity

As discussed in Note 1, the financial statements of the Millington Municipal Schools Board of Education are intended to present the financial position and the changes in financial position of only the governmental activities, each major fund, and fiduciary funds of the City of Millington, Tennessee, that is attributable to the transactions of the Millington Municipal Schools Board of Education. They do not purport to, and do not present fairly the financial position of the City of Millington, Tennessee as of June 30, 2017, the changes in its financial position, budgetary comparisons, or where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

### Changes in Accounting Principle

The School implemented Governmental Accounting Standards Board ("GASB") Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans*, in the fiscal year ending June 30, 2017. The implementation of the Statement modified note disclosures related to the School's Post employment benefit plan and added additional required supplementary information schedules. The School also began recording the OPEB trust as a fiduciary fund. Our opinion is not modified with respect to this matter.

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 4-10) and certain pension and post employment benefit information (pages 58-60), be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Schools' basic financial statements. The statement of revenues, expenditures, and changes in fund balance-budget and actual-capital projects fund, organizational chart and roster of school officials are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal and state awards and related notes are presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The statement of revenues, expenditures, and changes in fund balance-budget and actual-capital projects fund and the schedule of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the statement of revenues, expenditures, and changes in fund balance-budget and actual-capital projects fund and the schedule of expenditures of federal and state awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The organization chart and roster of school officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide an assurance on it.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2017, on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control over financial reporting and compliance.

Memphis, Tennessee December 6, 2017

Dixon Hughes Goodman LLP

As management of the Millington Municipal Schools Board of Education (the "School"), we offer readers of the School's financial statements this narrative overview and analysis of the financial activities of the School for the fiscal year ended June 30, 2017.

Management's Discussion and Analysis ("MD&A") focuses on current year activities and resulting changes. Please consider the information presented here in conjunction with the accompanying notes to the financial statements.

### Financial Highlights

Highlights of the financial statements for the year ended June 30, 2017, for Millington Municipal Schools are as follows:

- Net position. Total governmental assets and deferred outflows at year-end were \$62.3 million and exceeded liabilities and deferred inflows of resources by \$55.9 million (net position). Of the total net position \$7.7 million is unrestricted that may be used to meet the government's ongoing obligations to citizens and creditors. Net position increased from fiscal year 2016 to fiscal year 2017 by \$3.7 million.
- Fund balances. At the end of the current fiscal year, the School's governmental funds reported combined ending fund balances of \$7,763,192, of which \$4,980,238 (unassigned fund balance) may be used to meet the School's spending requirements, \$2,419,605 are assigned to capital projects, \$336,808 are restricted for instruction, instructional support and nutrition, and \$26,541 is nonspendable. The School has four funds: The General Purpose Fund, Federal Projects Fund, Cafeteria Fund, and Capital Projects Fund. The General Fund balance was \$5.0 million. The Federal Projects Fund balance was \$0. The Cafeteria Fund Balance was \$352,188. The Capital Project Fund balance was \$2.4 million.
- **General purpose school fund.** This was the third full year of school operations. In fiscal year 2016, the School had a fund balance of \$4.4 million. During the current year, fund balance for the General Purpose School Fund was \$5.0 million, or 22% of current year expenditures.
- Capital assets. During the year the capital assets increased by 10%. The School purchased the land and buildings known as the Civic Center from the City of Millington, and purchased various equipment for operations. The School received \$423,540 from Shelby County for Capital projects, and \$1.95 million was transferred in from the General Purpose School Fund.
- Cafeteria fund. In fiscal year 2016, the Cafeteria Fund balance was \$219,573. For fiscal year 2017, the Cafeteria Fund balance was \$352,188, or 22% of current year expenditures.
- Debt service. A \$230,219 payment was made to reduce the settlement obligation due to the Shelby County Board of Education.

### Summary of Organization

The Millington Municipal Schools (School) was established by the City of Millington, Tennessee (the City) under the provisions of the City's Charter, Article II, Section 2.02. The City is located in Shelby County. The School began operations on June 2, 2014 upon transfer of property. Prior to this date, the schools were operated by the Shelby County Board of Education.

The School is governed by a Board of Education (the "Board") composed of seven citizens who live within the City. Board members serve for a term of four years and are elected by citizens via a city-wide vote. The Board hires a Director of Schools who manages the School.

The School operates four individual schools which consist of two elementary, one middle, and one high school. All of the schools are accredited by the Southern Association of Colleges and Schools (SACS). In addition, the School operates a system-wide preschool program.

The School receives annual funding from the City of Millington and a pro-rata share of property taxes and local option sales taxes from Shelby County based upon the weighted full time equivalent average daily attendance

(WFTEADA). For fiscal year 2016 the WFTEADA was 1.81% and for fiscal year 2017 it was 1.80%. The City of Millington Board of Mayor and Aldermen annually approves the School's appropriations for its governmental funds.

### Overview of the Annual Financial Statements

Management's Discussion and Analysis is intended to serve as an introduction to the School's basic financial statements and supplementary information. The MD&A represents management's examination and analysis of the School's financial condition and performance.

The School's basic financial statements are comprised of three components: (1) district-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements.

**District-wide Financial Statements.** The School operates under the City Charter and is considered a department of the City; therefore, these financial statements are "blended" within the City's financial statements. The district-wide financial statements are designed to provide readers with a broad overview of the School's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the School's assets, liabilities and deferred outflows/inflows, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School is improving or deteriorating. However, the School's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School.

The statement of activities presents information showing how the net position of the School changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows; thus, some revenues and expenses are reported in this statement for items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The district-wide financial statements can be found on pages 11 and 12 of this report.

**Fund Financial Statements.** A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the School are governmental funds.

**Governmental Funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the district-wide financial statements. However, unlike the district-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the district-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the district-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The School maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Purpose School Fund, School Federal Projects Fund, the Cafeteria Fund and the Capital Projects Fund.

The basic governmental fund financial statements can be found on pages 14 through 16 of this report.

**Fiduciary funds.** The Schools maintains two fiduciary funds. Fiduciary funds account for assets held in a trustee capacity or as an agent for individuals. The School uses a fiduciary fund to account for the activities and accumulation of resources for payments to qualified participants and investments held by external organizations. The OPEB fund accounts for transactions related solely to retiree group medical benefits. The student activity fund accounts for all money received from any source for school-sponsored student activities or school-sponsored events held at or in connection with a school. The basic fiduciary fund financial statements can be found on pages 33 - 36 of this report.

**Budget to Actual Comparison** –The School adopts an annual appropriated budget for all governmental funds. A budgetary comparison statement has been provided for the General Purpose School Fund, the Federal Projects Fund, the Cafeteria Fund and the Capital Projects Fund to demonstrate compliance with this budget. Budget to actual comparison for the major funds can be found on pages 16 through 32 and page 69 of this report.

**Notes to the Financial Statements:** The notes provide additional information that is essential for a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements can be found on pages 36 through 57 of this report.

**Required Supplementary Information (RSI):** This information provides a schedule of proportionate share of net pension assets and of contributions of the Tennessee Consolidated Retirement System ("TCRS") plan for the Schools' non-teaching personnel. Teachers are considered state employees for TCRS retirement purposes. The RSI can be found on pages 58 through 68 of this report.

### District-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The School's assets and deferred outflows exceeded liabilities and deferred inflows of resources by \$55.9 million at June 30, 2017.

### Condensed Statement of Net Position June 30, 2017 and 2016

|  | 2017                                      | 2016                               |
|--|---|------------------------------------|
| Assets: Current and other assets Capital assets, net Pension assets, net | \$ 8,708,819<br>47,886,150<br>37,145      | \$ 7,391,515<br>46,344,253         |
| Total assets   | 56,632,114                                | 53,735,768                         |
| Deferred outflow of resources  | 5,657,303                                 | 5,645,202                          |
| Liabilities:<br>Current Liabilities<br>Long-term liabilities             | 2,687,235<br>1,592,181                    | 1,397,221<br>1,769,410             |
| Total liabilities  | 4,279,416                                 | 3,166,631                          |
| Deferred inflows of resources  | 2,133,121                                 | 4,030,197                          |
| Net position: Invested in capital assets Restricted Unrestricted         | 47,886,150<br>336,808<br><u>7,653,922</u> | 46,344,253<br>210,325<br>5,629,564 |
| Total net position, before restatement                                   | <u>\$ 55,876,880</u>                      | \$ 52,184,142                      |

By far the largest portion of the School's net position reflects its net investment in capital assets (e.g., land, buildings, machinery, and equipment). The School uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

The unrestricted net position may be used to meet the School's obligations to students, employees, and creditors as well as help fund next year's budget.

The School's governmental net position increased by \$3.7 million during fiscal year 2017. The following discussion and analysis on governmental activities focuses on these changes.

**Governmental Activities.** The key factors in the increase of the School's net position for the fiscal years ended June 30, 2017 and 2016, are as follows:

### Condensed Statement of Changes in Net Position June 30, 2017 and 2016

|   | 2017                 | 2016                  |

| Non-instructional (pre-school)              | 740,133              | 728,344               |
| Food service                                | 1,581,330            | 1,431,417             |
| Capital outlay                              | 223,393              | 257,498<br>57,565     |
| Interest charges                            | 52,990               | <u>57,565</u>         |
| Total Expenses                              | 27,430,651           | 25,822,011            |
| Special item – impairment of capital assets |                      | (1,126,042)           |
| Change in net position                      | 3,692,738            | 2,916,613             |
| Net position, beginning of year             | 52,184,142           | 49,267,529            |
| Net position, end of year                   | <u>\$ 55,876,880</u> | <u>\$ 52,184,142</u>  |

The significant factors contributing toward the fiscal year 2017 \$3.7 million increase in net position were the additions to the capital assets from the acquisition of the Civic Center from the City, an increase in Basic Education Funding (BEP) from the State, and an increase in Shelby County government funding.

**Revenues.** The Tennessee Education Improvement Act ("EIA") of 1992 established the Tennessee Basic Education Program ("BEP") as the funding formula for kindergarten through grade twelve education in Tennessee. The components of the formula are grouped into three categories for determining the state and local share of formula funding in each school system: instructional funding, classroom funding and non-classroom funding. The percentage allocated to each category is further influenced by a calculated Fiscal Capacity Indices.

The School's BEP allocation for fiscal year 2017 was \$12,622,000. It was based on the student Average Daily Membership (ADM) of 2,536 students during the fiscal year 2016. The BEP allocation was 73.11% for Instructional Funding, 78.63% for Classroom Funding and 50.93% for Non-Classroom Funding. The required local matching funds were 26.89%, 21.37% and 49.07%, respectively. The total required local match was \$5,811,000. The percentages used in the BEP formula will vary from what is actually spent in those categories for several reasons. For example, the BEP formula provides one rate for teacher salaries that does not include the cost of local salary supplements. As a result, the actual percent of funds spent in the instructional or classroom category may be greater than the percentage of the BEP formula.

Local taxes and contributions from the Shelby County government consist of Shelby County property taxes, local option sales taxes, mixed drink tax, wheel tax, and general fund transfers were \$10,307,282 in fiscal year 2017. Shelby County also allocated \$423,540 for capital improvement projects.

The City of Millington transferred \$500,000 for operations and \$230,219 for the Shelby County Board of Education debt.

**Expenses.** Instructional expenses represent the largest category for fiscal year 2017 with expenses of \$15,239,935, which is 56% of total expenses for fiscal year 2017.

### Financial Analysis of School Funds

As noted earlier, the School uses fund accounting to ensure and demonstrate compliance with finance and related legal requirements.

**Governmental Funds.** The focus of the School's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the School's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the School's net resources available for spending at the end of the fiscal year.

As of June 30, 2017, the School's governmental funds reported a combined fund balance of \$7,763,192, an increase of \$1,699,145 from the previous year. Approximately 64% or \$4,980,238 of the combined fund balance constitutes the unassigned fund balance, which is available for spending at the School's discretion. Pursuant to GASB Statement No. 54, the remainder of the fund balance is classified as non-spendable, restricted, or assigned. \$26,541 is classified as non-spendable for prepaid expenses and cafeteria inventory, \$336,808, is restricted for a specific purpose per enabling legislation, and \$2,419,605 is assigned for a specific purpose per action by the Board of Education for Capital Projects.

**General Purpose School Fund.** The General Purpose School Fund is the main operating fund of the School. At June 30, 2017, unassigned fund balance was \$4,980,238 while total fund balance was \$4,991,399. As a measure of the fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total expenditures. Unassigned fund balance represents 22% of total general purpose school fund expenditures. The total fund balance represents 22% of total general purpose school fund expenditures.

The fund balance of the School's General Purpose School Fund increased by \$619,033 during the current fiscal year. A few highlights of the General Purpose School Fund are as follows:

Revenues and other net financing sources were \$24,909,899 for fiscal year 2017 and \$24,327,482 for fiscal year 2016, with a net increase of \$582,417. The major factors contributing to the increase in fiscal

year 2017 were the increase in BEP funding from the state for pay increases and the increase in Shelby County funding.

- Expenditures and other uses were \$24,290,866 for fiscal year 2017 and \$23,722,523 for fiscal year 2016, an increase on \$568,343. The primary factor for the increase was the purchase of additional equipment for the classrooms and replacement of old computer equipment.
- Instructional expenditures represent 51.6% of the total expenditures and other uses for fiscal 2017.

**Federal Projects Fund.** The Federal Projects Fund, which accounts for a majority of the School's federal grants, reported revenues and expenditures of \$2,358,852 for fiscal year 2017 compared to \$2,318,100 for fiscal year 2016.

**Cafeteria Fund.** The Cafeteria operates on reimbursements from the federal government and food sales. The schools participate in the Federal Community Eligibility Provision that provides meals at no expense to the students and reimburses the schools at a set rate per meal. Additional federal funding is provided for commodities to the schools. As a result of food sales in the form of adult meals and additional student meals, the fund balance was \$352,188 at the end of fiscal year 2017.

**Capital Projects Fund.** The Capital Projects Fund received \$2,386,393 in revenues and other financing sources. The Shelby County government provided \$423,540 and the federal government \$12,853 for capital projects. The Schools transferred in \$1,950,000 from the general fund. The fund balance is \$2,419,605 which is assigned to capital projects in fiscal year 2017.

### **BUDGETARY HIGHLIGHTS**

There was a net increase of \$881,224 in budgetary amendments to the General Purpose Fund's expenditures during fiscal year 2017. This was primarily due to transfer of funds to the Capital Projects Fund and an increase in revenue during the year allowing for the purchase of equipment for the classrooms.

The General Purpose Fund balance increased \$619,033. Current year expenditures in instructional and support services were \$1.1 million less than budgeted.

Actual revenues and other financing sources were over budgeted amounts by \$513,480 in the general fund. The significant variance occurred in Local County Revenue. This was due to a change in the weighted full time equivalent average daily attendance percentage adjustment made in April that was retroactive to the beginning of the fiscal year.

Expenditures and other financial uses were \$100,680 under budget in the general fund.

### Capital Assets

The School's investment in capital assets for its governmental activities as of June 30, 2017, was \$51,687,699 with accumulated depreciation of \$3,801,549 resulting in a net book value of \$47,886,150.

The majority of capital asset activity is due to the purchase of the Civic Center from the City.

### **Condensed Statement of Capital Assets**

|                          | 2017 |            |    | 2016       |  |  |
|--------------------------|------|------------|----|------------|--|--|

|-------------------------------|---------------------------|-------------------------------|
| Total assets                  | <u>\$ 47,886,150</u>      | \$<br>46,344,253              |

### Enrollment

Fiscal year 2017 was the third year the School operated with students. Student enrollment has a significant impact on state and local funding levels. The Average Daily Membership at the end of the fiscal year 2017 was 2,540 compared to 2,536 at the end of fiscal year 2016. Management is closely monitoring various factors affecting enrollment.

### Economic Factors and Next Year's Budget

During the preparation of the fiscal year 2018 budget, the following major assumptions were used.

- The fiscal year 2018 budgeted expenditures for the General Purpose Fund are \$23.6 million. This is a 3% decrease over fiscal year 2017 expenditures of \$24.2 million. The School does not anticipate transferring funds to the Capital Projects Fund in fiscal year 2018.
- Compensation and benefits budgeted in fiscal year 2018 for employees are \$17.9 million. This is a 3% increase over fiscal year 2017 expenditures of \$17.4 million. The increase is primarily due to a pay increase for employees, and an increase in health care benefits.
- For fiscal year 2018, the School has projected a 5% average increase in health insurance premiums. The TCRS pension employer contribution rate increased from 9.04% to 9.08% for legacy certified (teachers) staff and remained at 9% for certified (teachers) staff hired after July 1, 2014. The rate remained 8.93% for non-certified (support) staff. Life insurance premiums are not projected to increase.
- A pay raise of \$1,000 for certified staff and a 2% increase for classified staff is projected for all full-time employees.
- The construction of a new Performing Arts Center for the High School at approximately \$6.7 million is projected to begin in fiscal year 2018.

### FINAL COMMENTS

The Millington Municipal School District worked through many challenges and unknowns in the third year of operations to provide a quality public education for students. The major unknowns that continue to impact the budget were the estimates of the number of students who would be enrolled and the number of teachers needed. At the end of this year a trend is developing that will assist in the budgeting process.

### CONTACTING THE SCHOOL

This financial report is designed to provide our citizens, parents, students, creditors, and regulatory agencies with an overview of the School's finances. If you have any questions about this report or need additional information, you may contact the School as follows:

# Millington Municipal Schools Board of Education Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance of Governmental Funds to the Statement of Activities Year Ended June 30, 2017

| Net change in fund balance, total governmental funds  | \$<br>1,699,145          |
|---|--------------------------|
| Amounts reported for governmental activities in the statement of activities are different because:  Governmental funds report capital outlays as expenditures. In the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. |                          |
| Capital outlays capitalized  Depreciation expense   | 1,236,405<br>(1,137,328) |
| Capital assets contributed by City of Millington  | 1,442,820                |
| Some revenues or expenditures reported in the statement of activities are not yet available or expensed and therefore are not reported as revenue or expenses in governmental funds.  | 354,732                  |
| Principal portion of long-term settlement liability is an expenditure in the governmental funds, but the repayment reduces the long-term liability in the statement of net position.  | 177,229                  |
| Contributions made to pension plans after the measurement date (June 30, 2016) will not be recognized as an increase in the net pension asset until the following measurement date (June 30, 2017), which will be used to report the net pension liability in the next fiscal year.             | 1,217,586                |
|   | 1,217,000                |
| Other postemployment benefits (OPEB) liabilities result from the cumulative excess of required contribution over actual contributions to the OPEB funds. These liabilities are included in the statement of net position.   | (333,495)                |
| Pension expense represents the costs of benefits accrued in the current year, net of changes in deferred outflows and inflows of resources. This expense is not an expenditure of the funds, and; therefore, has not been recorded as a change in net   |                          |
| fund balance in the fund financial statements.  | <br>(964,356)            |
| Change in net position of governmental activities   | \$<br>3,692,738          |

# 1. Summary of Significant Accounting Policies

The accounting policies of the Millington Municipal Schools Board of Education ("School") of the City of Millington, Tennessee, conform to generally accepted accounting principles applicable to government as defined by the Statements of Governmental Accounting Standards Board. The following is a summary of the more significant accounting policies:

## (A) - Financial reporting entity

The City of Millington, Tennessee ("City") has determined that the School's general purpose fund, federal projects fund, cafeteria fund, and capital projects fund represent special revenue funds of the City, the School's student activity funds are an agency fund of the City, and the School's other postemployment benefits (OPEB) trust fund is a trust fund of the City.

The financial statements of the School have been prepared in accordance with the generally accepted accounting principles in the United States of America ("GAAP") applicable to governmental units. As required by generally accepted accounting principles, these financial statements present all funds, which comprise the School. These financial statements present the School as funds of a primary government (City of Millington, Tennessee) and there are no component units, entities for which the School is considered financially accountable that should be included.

# (B) - Basis of presentation

### District-wide financial statements

The district-wide financial statements include a statement of net position and a statement of activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not included among program revenues are reported as general revenues. The effect of interfund activity has been removed from the district-wide financial statements.

## Governmental fund financial statements

Governmental fund financial statements of the reporting entity are organized into funds, each of which are considered to be separate accounting entities. Each fund is accounted for by providing a set of self-balancing accounts which constitute its assets, liabilities, fund balance, revenues, and expenditures/expenses. The School has four special revenue funds which are presented as major funds.

The funds of the financial reporting entity are described below:

## Governmental funds

**General purpose fund** – The general purpose fund is the primary operating fund of the School and is always classified as a major fund. It is used to account for all financial resources except those required to be accounted for in another fund.

**Cafeteria fund** – The cafeteria fund accounts for the receipts and expenditures related to the School's cafeteria operations. These funds are required to be maintained in a separate fund.

**Federal projects fund** – The federal projects fund accounts for the receipts and expenditures of the School's federally funded programs.

Capital projects fund – The capital projects fund accounts for all the School's capital improvement projects.

Agency fund – The agency fund accounts for the School's student activity fund.

Trust fund – The trust fund accounts for the activity of the school's OPEB activities.

## (C) - Measurement focus and basis of accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

### Measurement focus

The district-wide and fiduciary funds statement of net position and the statement of activities are presented using the "economic resources" measurement focus. Accordingly, all of the School's assets and liabilities, including capital assets and long-term pension and OPEB liabilities are included in the accompanying statement of net position. The statement of activities presents changes in net position.

In the fund financial statements, the "current financial resources" measurement focus or "economic resources" measurement focus is used as appropriate. All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available resources during a given period. These funds use fund balance as their measure of available resources at the end of the period.

### **Basis of accounting**

The district-wide fiduciary funds statement of net position and statement of activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the School, are property taxes and other local taxes. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

# (D) – Budgetary data

Budgets and amendments are prepared by the Director and presented to the School and the City's Mayor and Board of Alderman for approval. Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America.

The School's policy is not to allow expenditures to exceed budgetary amounts at the total fund expenditure level.

## (E) - Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, cash in checking accounts with depository institutions, and all highly liquid debt instruments purchased with a maturity of three months or less.

### (F) – Investments

The School's fiduciary fund investments are held by a third party trust in the name of the School. Investments are reported at fair value. The investment portfolio is managed to maintain the preservation of the principal of those funds within the portfolio and to maximize the return on investments while remaining within prudent financial management. Additionally, the School utilizes an advisor to select appropriate investment choices.

## (G) – Fair Value Measurements

Assets and liabilities recorded at fair value in the statements of net position are categorized based on the level of judgment associated with the inputs used to measure their fair value. Level inputs are as follows:

- **Level 1 -** Values are unadjusted quoted prices for identical assets in active markets accessible at the measurement date.
- **Level 2 -** Inputs include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.
- **Level 3 -** Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the School's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

### (H) - Receivables

Receivables are composed of amounts due from other governments, primarily the State of Tennessee and the United States government. No allowance for uncollectible accounts has been recognized.

### (I) - Inventory

Inventory consists of food supplies and is presented at the lower of cost or market. Inventory is charged to operations when consumed using average cost.

## (J) – Capital assets

The School's assets are capitalized at historical cost or estimated historical cost. Gifts or contributions of capital assets, including intangible assets, are recorded at fair value when received. Capital assets include buildings and equipment used by the School. The School defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life of three years or greater. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Buildings, improvements, and equipment, of the School are depreciated using the straight-line method over the following estimated useful lives:

| Buildings and improvements | 25-50 years |
|----------------------------|-------------|
| Other improvements         | 50 years    |
| Equipment                  | 10-20 years |

## (K) - Deferred outflows and inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflow of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The School has two items that meet this criterion - a pension related deferral and contributions made to the pension plan in the current fiscal year. The statement of financial position also reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Board has one item that meets this criterion related to pension actuarial losses.

### (L) - Compensated absences

The School's personnel policies do not allow any vested accumulation of annual leave, except for certain administrative employees. Balances of accrued annual leave are not material at year end. Sick leave can be accumulated for an unlimited number of days; however, the employee retains no vested interest.

### (M) - Fund balance

Governmental fund equity is classified as fund balance. The governmental fund type classifies fund balances as follows:

### Nonspendable

Non-spendable fund balance consists of funds that cannot be spent due to their form (e.g. inventories) or funds that legally or contractually must be maintained intact.

### Restricted

Restricted fund balance consists of funds that are mandated for a specific purpose by external parties, constitutional provisions or enabling legislation.

## **Assigned**

Assigned fund balance consists of funds that are set aside with the intent to be used for a specific purpose by the School's highest level of decision making authority or a body or official that has been given the authority to assign funds. At this time, the School has maintained the authorization to assign fund balance.

### **Unassigned**

Unassigned fund balance consists of excess funds that have not been classified in the previous four categories. All funds in this category are considered spendable resources. This category also provides the resources necessary to meet unexpected expenditures and revenue shortfalls.

When expenditures involve funds in more than one fund balance classification, the School would use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed. However, it reserves the right to selectively spend unassigned resources first and to defer the use of other classified funds.

## (N) - Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affects the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### (O) - Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teacher Legacy Pension Plan, Teacher Retirement Plan, and Political Subdivision Pension Plan sponsored by the Tennessee Consolidated Retirement System ("TCRS") and additions to/deductions from each plan's fiduciary net position have been determined on the same basis as they are reported by the TCRS. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of each plan. Investments are reported at fair value.

### (P) - Change in accounting principles

The School implemented Governmental Accounting Standards Board ("GASB") Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans*, in the fiscal year ending June 30, 2017. The implementation of the Statement modified note disclosures related to the School's OPEB plan and added additional required supplementary information schedules. In implementing this standard, the School determined that the fiduciary net position related to the OPEB should also be included in the financial statements.

# 2. Deposits

Deposits with financial institutions are subject to custodial risk, which is the risk that in the event of a bank failure, the school's deposits may not be returned to it. To reduce the risk of loss, Tennessee State Law required that all deposits with financial institutions in excess of FDIC limits be secured (1) with a financial institution(s) that participates in the State of Tennessee Bank Collateral Pool administered by the state treasurer or (2) are collateralized with securities held by the Millington Municipal Schools Board of Education's agent in the name of the Board of Education whose market value is equal to 105 percent (105%) of the uninsured deposits. None of the deposits were subject to custodial risk as all balances were insured through FDIC or deposited with banks participating in the State of Tennessee Bank Collateral Pool. At yearend, cash per bank was \$7,531,304 before reconciliation to the carrying amount of \$6,860,393 on the balance sheet for governmental funds. The student activity fund also had cash per bank of \$307,316 before reconciliation to the carrying amount of \$304,161 on the balance sheet at year end.

# 3. Investments

## Fiduciary Investments

Disclosures concerning the investments held by the trust that are reported at fair value are presented below. Fair value has been determined based on the School's assessment of available market information and appropriate valuation methodologies. The following table summarizes fair value disclosures and measurements at June 30, 2017:

|   |      |                                       | Price<br>Ma<br>Id | Value Meases es in Active earkets for dentical Assets | surements at Repo<br>Significant<br>Other<br>Observable<br>Inputs |                  | orting Date Using Significant Unobservable Inputs |                  |
|---|------|---------------------------------------|-------------------|---|---|------------------|---|------------------|
|   | _ Fa | ir Value                              | (                 | Level 1)  | (Lev  | /el 2)           | (Lev  | /el 3)           |
| Investments Mutual funds: Fixed income Domestic equities International equities Emerging equities | \$   | 92,600<br>108,987<br>44,479<br>10,405 | \$                | 92,600<br>108,987<br>44,479<br>10,405                 | \$<br>\$  | -<br>-<br>-<br>- | \$<br>\$  | -<br>-<br>-<br>- |
|   | \$   | 256,471                               | \$                | 256,471   | \$  | <u>-</u>         | \$  | <u>-</u>         |

Prices for investment securities such as mutual funds are readily available in the active markets in which those securities are traded, and the resulting fair values are categorized as Level 1.

# 4. Surety Bonds

The Board of Education carries a \$150,000 blanket bond covering all employees.

# 5. Interfund Transfers

During the year ended June 30, 2017, the City transferred \$500,000 and the Shelby County Government transferred \$44,018 to the general purpose fund to be used for general operations.

The School's general purpose fund also transferred \$1,950,000 to the capital projects fund and the federal projects fund transferred \$93,252 to the general purpose fund during fiscal year 2017.

# 6. Capital Assets

Capital asset activity for the year ended June 30, 2017 was as followed:

|  | July 1, 2016         | Additions   | Deletions    | Transfers           | June 30, 2017        |
|--|----------------------|-------------|--------------|---------------------|----------------------|

| Equipment  | (35,339)             | (27,320)    |              | <u></u>             | (62,569)             |
| Total accumulated  |                      |             |              |                     |                      |
| depreciation   | (1,940,274)          | (1,137,328) | -            | (723,947)           | (3,801,549)          |
| Other capital assets, net  | 43,347,384           | (666,668)   | <del>-</del> | 1,442,820           | 46,305,405           |
| Governmental activities capital assets, net                          | <u>\$ 46,344,253</u> | \$ 99,077   | <u>\$</u>    | <u>\$ 1,442,820</u> | <u>\$ 47,886,150</u> |

Depreciation was charged to the instruction function of the general purpose fund.

Capital assets are recorded at cost or estimated cost or fair value at the date of acquisition if actual cost cannot be determined. Interest costs incurred during the construction period are capitalized.

During the fiscal year 2017, the City of Millington transferred buildings which were recorded at their net book value of \$1,442.820.

## 7. Pension Plans

Millington Municipal Schools participates in the following pension plans administered by the Tennessee Consolidated Retirement System (TCRS):

**Teacher Legacy Pension Plan (TLPP)** – Teachers with membership in TCRS prior to June 30, 2014 are included in the TLPP. The TLLP was closed to new membership on June 30, 2014, but continues to provide benefits to existing members. The TLPP is a cost sharing multiple-employer pension plan.

**Teacher Retirement Plan (TRP)** – Teachers with membership in TCRS beginning July 1, 2014 are included in this plan. The TRP is a hybrid plan which features both a defined contribution element and a pension plan element. The TRP is a cost sharing multiple-employer pension plan.

**Political Subdivision Pension Plan (PSPP)** – Certain administrative employees are included in the PSPP, which is maintained separately from the City of Millington's PSPP.

The TCRS was created by state statute under Tennessee Code Annotated Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of all employer pension plans in the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publically available financial report that can be obtained at www.treasury.tn.gov/tcrs.

## (U) - Teacher Legacy Pension Plan

### General Information about the Pension Plan

Plan Description – Teachers, with membership in the Tennessee Consolidated Retirement System (TCRS) before July 1, 2014, of Millington Municipal Schools are provided with pensions through the Teacher Legacy Pension Plan, a cost sharing multiple-employer pension plan administered by the TCRS. The Teacher Legacy Pension Plan closed to new membership on June 30, 2014, but will continue providing benefits to existing members and retirees. Beginning July 1, 2014, the Teacher Retirement Plan became effective for teachers employed by Local Education Agencies (LEAs) after June 30, 2014 who did not have prior membership in TCRS. The Teacher Retirement Plan is a separate cost-sharing, multiple-employer defined benefit plan. The TCRS was created by state statute under Tennessee Code Annotated Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of all employer pension plans in the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publically available financial report that can be obtained at www.treasury.tn.gov/tcrs.

Benefits Provided – Tennessee Code Annotated Title 8. Chapters 34-37 establishes the benefit terms and can be amended only by the Tennessee General Assembly. Members of the Teacher Legacy Pension Plan are eligible to retire with an unreduced benefit at age 60 with 5 years of service credit or after 30 years of service credit regardless of age. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. A reduced early retirement benefit is available at age 55 and vested. Members are vested with five years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2<sup>nd</sup> of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest. Under the Teacher Legacy Pension Plan, benefit terms and conditions, including COLAs, can be adjusted on a prospective basis. Moreover, there are defined cost controls and unfunded liability controls that provide for the adjustment of benefit terms and conditions on an automatic basis.

Contributions – Contributions for teachers are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Teachers contribute 5 percent of salary. The Local Education Agencies (LEAs) make employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. By law, employer contributions for the Teacher Legacy Pension Plan are required to be paid. The TCRS may intercept the state shared taxes of the sponsoring governmental entity of the LEA if the required employer contributions are not remitted. Employer contributions by Millington Municipal Schools for the year ended June 30, 2017 to the Teacher Legacy Pension Plan were \$906,116, which is 9.04 percent of covered payroll. The employer rate, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

# Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension Liabilities – At June 30, 2017, Millington Municipal Schools reported a liability of \$1,747,388 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. Millington Municipal Schools' proportion of the net pension liability was based on Millington Municipal Schools' share of contributions to the pension plan relative to the contributions of all participating LEAs. At the measurement date of June 30, 2016, Millington Municipal Schools' proportion was 0.279607 percent. The proportion measured as of June 30, 2015 was 0.244172 percent.

*Pension Expense* – For the year ended June 30, 2017, Millington Municipal Schools recognized a pension expense of \$782,008 related to the Teacher Legacy Pension Plan.

Deferred Outflows of Resources and Deferred Inflows of Resources – For the year ended June 30, 2017, Millington Municipal Schools reported deferred outflows of resources and deferred inflows of resources related to the Teacher Legacy Pension Plan from the following sources:

|   | Ou        | Deferred Deferred Outflows of Inflows of Resources Resources |           |                |  |
|---|-----------|--|-----------|----------------|--|
| Differences between expected and actual experience<br>Net difference between projected and actual earnings on | \$        | 73,536   | \$        | 2,115,508      |  |
| pension plan investments Changes in proportion of Net Pension Liability (Asset)                               |           | 1,950,982  |           | -              |  |
| LEA's contributions subsequent to the measurement date  |           | 2,358,069  |           | -              |  |
| of June 30, 2016  |           | 906,116  | <u>(n</u> | ot applicable) |  |
| Total   | <u>\$</u> | 5,288,703  | <u>\$</u> | 2,115,508      |  |

Millington Municipal Schools' employer contributions of \$906,116 reported as pension related deferred outflows of resources, subsequent to the measurement date, will be recognized as an increase in net pension asset for the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ended June 30, |               |
|---------------------|---------------|
| 2018                | \$<br>249,114 |
| 2019                | 249,114       |
| 2020                | 1,184,999     |
| 2021                | 667,957       |
| 2022                | (84,104)      |
| Thereafter          | _             |

In the table above, positive amounts will increase pension expense, while negative amounts will decrease pension expense.

Actuarial Assumptions – The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation                 | 3.0 percent  |
|---------------------------|--|
| Salary increases          | Graded salary ranges from 8.97 to 3.71 percent based on age, including inflation, averaging 4.25 percent |
| Investment rate of return | <ol><li>7.5 percent, net of pension plan investment expenses, including inflation</li></ol>              |
| Cost of living adjustment | 2.5 percent  |

Mortality rates are customized based on the June 30, 2012 actuarial experience study and included some adjustment for expected future improvement in life expectancy.

The actuarial assumptions used in the June 30, 2016 actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2008 through June 30, 2012. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2012 actuarial experience study by considering the following three techniques: (1) the 25-year historical return of the TCRS at June 30, 2012, (2) the historical market returns of asset classes from 1926 to 2012 using the TCRS investment policy asset allocation, and (3) capital market projections that were utilized as a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. Four sources of capital market projections were blended and utilized in the third technique. The blended capital market projection established the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding inflation of 3 percent. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class                           | Long-Term Expected Real Rate of Return | Target<br><u>Allocation</u> |
|---------------------------------------|--|-----------------------------|
| U.S. equity                           | 6.46%                                  | 33%                         |
| Developed market international equity | 6.26%                                  | 17%                         |
| Emerging market international equity  | 6.40%                                  | 5%                          |
| Private equity and strategic lending  | 4.61%                                  | 8%                          |
| U.S. fixed income                     | 0.98%                                  | 29%                         |
| Real estate                           | 4.73%                                  | 7%                          |
| Short-term securities                 | 0.00%                                  | 1%                          |
|                                       |  | 100%                        |

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.5 percent based on a blending of the three factors described above.

Discount Rate - The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from the all LEAs will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of Net Pension Liability (Assets) to Changes in the Discount Rate – The following presents Millington Municipal Schools' proportionate share of the net pension liability (asset) calculated using the discount rate of 7.5 percent, as well as what Millington Municipal Schools' proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

|  |    |                      |                 | Current   |                       |             |
|--|----|----------------------|-----------------|-----------|-----------------------|-------------|
|  |    | % Decrease<br>(6.5%) | Discount (7.5%) |           | 1% Increase<br>(8.5%) |             |
| Millington Municipal Schools' Proportionate share of the net Pension liability (asset) | \$ | 9,595,207            | \$              | 1,747,388 | \$                    | (4,753,392) |

Pension Plan Fiduciary Net Position – Detailed information about the pension plan's fiduciary net position is available in a separately issued TCRS financial report.

### (B) - Teacher Retirement Plan

### General Information about the Pension Plan

Plan Description - Teachers, with membership in the Tennessee Consolidated Retirement System (TCRS) before July 1, 2014, of Millington Municipal Schools are provided with pensions through the Teacher Retirement Plan, a cost sharing multiple-employer pension plan administered by the TCRS. The Teacher Legacy Pension Plan closed to new membership on June 30, 2014, but will continue providing benefits to existing members and retirees. Beginning July 1, 2014, the Teacher Retirement Plan became effective for teachers employed by Local Education Agencies (LEAs) after June 30, 2014. The Teacher Retirement Plan is a separate cost-sharing, multiple-employer defined benefit plan. The TCRS was created by state statute under Tennessee Code Annotated Title 8, Chapters 34-37. The TCRS Board of Trustees is responsible for the proper operation and administration of all employer pension plans in the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publically available financial report that can be obtained at www.treasury.tn.gov/tcrs.

Benefits Provided – Tennessee Code Annotated Title 8, Chapters 34-37 establishes the benefit terms and can be amended only by the Tennessee General Assembly. Members of the Teacher Retirement Plan are eligible to retire at age 65 with 5 years of service credit or pursuant to the rule of 90 in which the member's age and service credit total 90. Members are entitled to receive unreduced service retirement benefits, which are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and include projected

service credits. A variety of death benefits are available under various eligibility criteria. Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2nd of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest. Under the Teacher Retirement Plan, benefit terms and conditions, including COLA, can be adjusted on a prospective basis. Moreover, there are defined cost controls and unfunded liability controls that provide for the adjustment of benefit terms and conditions on an automatic basis.

Contributions – Contributions for teachers are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly or by automatic cost controls set out in law. Teachers contribute 5 percent of salary. The Local Education Agencies (LEAs) make employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. Per the statutory provisions governing the TCRS, the employer contribution rate cannot be less than 4 percent, except in years when the maximum funded level, approved by the TCRS Board of Trustees, is reached. By law, employer contributions for the Teacher Retirement Plan are required to be paid. The TCRS may intercept the state shared taxes of the sponsoring governmental entity of the LEA if the required employer contributions are not remitted. Employer contributions for the year ended June 30, 2017 to the Teacher Retirement Plan were \$81,222 which is 4.00 percent of covered payroll. The employer rate, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of any unfunded liability.

<u>Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

Pension Assets – At June 30, 2017, Millington Municipal Schools reported an asset of \$37,145 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2016, and the total pension asset used to calculate the net pension asset was determined by an actuarial value of that date. Millington Municipal Schools' proportion of the net pension asset was based on Millington Municipal Schools' share of contributions to the pension plan relative to the contributions of all participating LEAs. At the measurement date of June 30, 2016, Millington Municipal Schools' proportion was 0.356813 percent. The proportion measured as of June 30, 2015 was 0.469858 percent.

*Pension Expense* – For the year ended June 30, 2017, Millington Municipal Schools recognized pension expense of \$31,363.

Deferred Outflows of Resources and Deferred Inflows of Resources – For the year ended June 30, 2017, Millington Municipal Schools reported deferred outflows of resources related to the Teacher Retirement Plan from the following sources:

|   | Out | eferred<br>tflows of<br>sources | Deferred<br>Inflows of<br>Resources |             |
|---|-----|---------------------------------|-------------------------------------|-------------|
| Differences between expected and actual experience  | \$  | 3,599                           | \$                                  | 4,283       |
| Net difference between projected and actual earnings on pension plan investments                              |     | 6,082                           |                                     | -           |
| Changes in proportion of Net Pension Liability (Asset) LEA's contributions subsequent to the measurement date |     | 3,171                           |                                     | -           |
| of June 30, 2016  |     | 81,222                          | (not a                              | applicable) |
| Total   | \$  | 94,074                          | \$                                  | 4,283       |

Millington Municipal School's employer contributions of \$81,222, reported as pension related deferred outflows of resources subsequent to the measurement date, will be recognized an increase of net pension liability (asset) in the year ended June 20, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

| Year Ended<br> |             |
|----------------|-------------|
| 2018           | \$<br>1,768 |
| 2019           | 1,768       |
| 2020           | 1,768       |
| 2021           | 1,478       |
| 2022           | 175         |
| Thereafter     | 1,613       |

In the table above, positive amounts will increase pension expense, while negative amounts will decrease pension expense.

Actuarial Assumptions - The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation                 | 3.0 percent  |
|---------------------------|--|
| Salary increases          | Graded salary ranges from 8.97 to 3.71 percent based on age, including inflation, averaging 4.25 percent |
| Investment rate of return | 7.5 percent, net of pension plan investment expenses, including inflation                                |
| Cost of living adjustment | 2.5 percent  |

Mortality rates are customized based on the June 30, 2012 actuarial experience study and included some adjustment for expected future improvement in life expectancy.

The actuarial assumptions used in the June 30, 2015 actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2008 through June 30, 2012. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2012 actuarial experience study by considering the following three techniques: (1) the 25-year historical return of the TCRS at June 30, 2012, (2) the historical market returns of asset classes from 1926 to 2012 using the TCRS investment policy asset allocation, and (3) capital market projections that were utilized as a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. Four sources of capital market projections were blended and utilized in the third technique. The blended capital market projection established the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding inflation of 3 percent. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class                           | Long-Term Expected Real Rate of Return | Target<br><u>Allocation</u> |
|---------------------------------------|--|-----------------------------|
| U.S. equity                           | 6.46%                                  | 33%                         |
| Developed market international equity | 6.26%                                  | 17%                         |
| Emerging market international equity  | 6.40%                                  | 5%                          |
| Private equity and strategic lending  | 4.61%                                  | 8%                          |
| U.S. fixed income                     | 0.98%                                  | 29%                         |
| Real estate                           | 4.73%                                  | 7%                          |
| Short-term securities                 | 0.00%                                  | 1%                          |
|                                       |  | 100%                        |

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.5 percent based on a blending of the three factors described above.

Discount Rate – The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from the all LEAs will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of Net Pension Liability (Assets) to Changes in the Discount Rate – The following presents Millington Municipal Schools' proportionate share of the net pension liability (asset) calculated using the discount rate of 7.5 percent, as well as what Millington Municipal Schools' proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

|  | 1% Decrease<br>(6.5%) |        | Current<br>Discount<br>(7.5%) | 1% Increase<br>(8.5%) |          |
|--|-----------------------|--------|-------------------------------|-----------------------|----------|
| Millington Municipal Schools' Proportionate share of the net Pension liability (asset) | \$                    | 17.541 | \$<br>(37,145)                | \$                    | (77,438) |

Pension Plan Fiduciary Net Position – Detailed information about the pension plan's fiduciary net position is available in a separately issued TCRS financial report.

401(k) Plan - The Teacher Retirement Plan provides a combination of a defined benefit plan and a defined contribution plan. The defined benefit portion of the Teacher Retirement Plan is managed by TCRS. The defined contribution assets are deposited into the State's 401(k) plan where the employee manages the investments within the 401(k) plan. Public school teachers are automatically enrolled, with opt-out feature, to contribute 2% of their salaries to the defined contribution (401(k)) portion of the Teacher Retirement Plan. Contributions are made on a tax-deferred basis. Employees are immediately vested in contributions.

## (C) - Political Subdivision Pension Plan

### General Information about the Pension Plan

*Plan Description* – Employees of Board of Education of Millington Municipal Schools are provided a defined benefit pension plan through the Political Subdivision Pension Plan, an agent multiple-employer pension plan administered

by the TCRS. Legislation passed in 2013 permits a local board of education to participate in TCRS separately from the local government. The TCRS Board of Trustees is responsible for the proper operation and administration of the TCRS. The Tennessee Treasury Department, an agency in the legislative branch of state government, administers the plans of the TCRS. The TCRS issues a publically available financial report that can be obtained at www.treasury.tn.gov/tcrs.

Benefits Provided - Tennessee Code Annotated Title 8. Chapters 34-37 establishes the benefit terms and can be amended only by the Tennessee General Assembly. The chief legislative body may adopt the benefit terms permitted by statute. Members of the legacy Political Subdivision Plan are eligible to retire with an unreduced benefit at age 60 with 5 years of service credit or after 30 years of service credit regardless of age. Benefits are determined by a formula using the member's highest five consecutive year average compensation and the member's years of service credit. Reduced benefits for early retirement are available at age 55 and vested. Members vest with five years of service credit. Service related disability benefits are provided regardless of length of service. Five years of service is required for non-service related disability eligibility. The service related and non-service related disability benefits are determined in the same manner as a service retirement benefit but are reduced 10 percent and included projected service credits. A variety of death benefits are available under various eligibility criteria.

Member and beneficiary annuitants are entitled to automatic cost of living adjustments (COLAs) after retirement. A COLA is granted each July for annuitants retired prior to the 2<sup>nd</sup> of July of the previous year. The COLA is based on the change in the consumer price index (CPI) during the prior calendar year, capped at 3 percent, and applied to the current benefit. No COLA is granted if the change in the CPI is less than one-half percent. A one percent COLA is granted if the CPI change is between one-half percent and one percent. A member who leaves employment may withdraw their employee contributions, plus any accumulated interest.

Employees covered by benefit terms – At the measurement date of June 30, 2016, the following employees were covered by the benefit terms:

| Inactive employees or beneficiaries currently receiving benefits | 1         |
|--|-----------|
| Inactive employees entitled to but not yet receiving benefits    | 6         |
| Active employees   | 88        |
|  |           |
|  | <u>95</u> |

Contributions - Contributions are established in the statutes governing the TCRS and may only be changed by the Tennessee General Assembly. Employees contribute 5 percent of their salary. The Local Education Agencies (LEAs) makes employer contributions at the rate set by the Board of Trustees as determined by an actuarial valuation. For the year ended June 30, 2017, the Actuarially Determined Contribution (ADC) for the Political Subdivision Pension Plan was \$230,248 based on a rate of 8.92 percent of covered payroll. By law, employer contributions for the Plan are required to be paid. The TCRS may intercept the state shared taxes of the sponsoring governmental entity of the LEA if the required employer contributions are not remitted. The employer's ADC and member contributions are expected to finance the costs of benefits earned by members during the year, the cost of administration, as well as an amortized portion of an unfunded liability.

The net pension liability (asset) was measured as of June 30, 2016, and the total pension liability (asset) used to calculate net pension liability (asset) was determined by an actuarial valuation as of that date.

Actuarial Assumptions - The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation                 | 3.0 percent  |
|---------------------------|--|
| Salary increases          | Graded salary ranges from 8.97 to 3.71 percent based on age, including inflation, averaging 4.25 percent |
| Investment rate of return | 7.5 percent, net of pension plan investment expenses,  |

including inflation

Cost of living adjustment 2.5 percent

Mortality rates were based on actual experience from the June 30, 2012 actuarial experience study adjusted for some of the expected future improvement in life expectancy.

The actuarial assumptions used in the June 30, 2016 actuarial valuation were based on the results of an actuarial experience study performed for the period July 1, 2008 through June 30, 2012. The demographic assumptions were adjusted to more closely reflect actual and expected future experience.

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees in conjunction with the June 30, 2012 actuarial experience study by considering the following three techniques: (1) the 25-year historical return of the TCRS at June 30, 2012, (2) the historical market returns of asset classes from 1926 to 2012 using the TCRS investment policy asset allocation, and (3) capital market projections that were utilized as a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. Four sources of capital market projections were blended and utilized in the third technique. The blended capital market projection established the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding inflation of 3 percent. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class                           | Long-Term Expected Real Rate of Return | Target <u>Allocation</u> |
|---------------------------------------|--|--------------------------|
| U.S. equity                           | 6.46%                                  | 33%                      |
| Developed market international equity | 6.26%                                  | 17%                      |
| Emerging market international equity  | 6.40%                                  | 5%                       |
| Private equity and strategic lending  | 4.61%                                  | 8%                       |
| U.S. fixed income                     | 0.98%                                  | 29%                      |
| Real estate                           | 4.73%                                  | 7%                       |
| Short-term securities                 | 0.00%                                  | 1%                       |
|                                       |  | 100%                     |

The long-term expected rate of return on pension plan investments was established by the TCRS Board of Trustees as 7.5 percent based on a blending of the three factors described above.

Discount Rate – The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current rate and that contributions from the all LEAs will be made at the actuarially determined contribution rate pursuant to an actuarial valuation in accordance with the funding policy of the TCRS Board of Trustees and as required to be paid by state statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability (Asset):

|   | (a)<br>Total Pension<br><u>Liability</u> |    | (b)<br>Plan Fiduciary<br>Net Position |    | (a) – (b)<br>Net Pension<br>Liability<br>(Asset) |  |

| Balance at 6/30/16                  | <u>\$ 600,526</u> | \$ 570,722 | \$ 29,804    |

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate – The following presents the net pension liability (asset) of the Political Subdivision Pension Plan calculated using the discount rate of 7.5 percent, as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

|   | 1% | Decrease<br>(6.5%) | Di | urrent<br>scount<br>(7.5%) | 1% | % Increase<br>(8.5%) |
|---|----|--------------------|----|----------------------------|----|----------------------|
| Political Subdivision Pension Plan net<br>Pension liability (asset) | \$ | 139,862            | \$ | 29,804                     | \$ | (58,987)             |

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

*Pension Expense* – For the year ended June 30, 2017, the Political Subdivision Pension Plan recognized pension expense of \$181,290.

Deferred Outflows of Resources and Deferred Inflows of Resources – For the year ended June 30, 2017, Millington Municipal Schools reported deferred outflows of resources related to the Political Subdivision Pension Plan from the following sources:

|  | Ou        | eferred<br>tflows of<br>sources | Int         | eferred<br>flows of<br>sources |
|--|-----------|---------------------------------|-------------|--------------------------------|
| Differences between expected and actual experience                               | \$        | 24,636                          | \$          | 13,330                         |
| Net difference between projected and actual earnings on pension plan investments |           | 19,642                          |             | -                              |
| Contributions subsequent to the measurement date of June 30, 2016                |           | 230,248                         | <u>(not</u> | applicable)                    |
| Total  | <u>\$</u> | 274,526                         | \$          | 13,330                         |

The Political Subdivision Pension Plan contributions of \$230,248 reported as pension related deferred outflow of resources, subsequent to the measurement date, will be recognized as a reduction in the net pension liability in the year ended June 30, 2017.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ended<br>June 30, |             |
|------------------------|-------------|
| 2018                   | \$<br>6,380 |
| 2019                   | 6,380       |
| 2020                   | 6,380       |
| 2021                   | 5,198       |
| 2022                   | 1,175       |
| Thereafter             | 5,429       |

In the table above, positive amounts will increase pension expense, while negative amounts will decrease pension expense.

# 8. Post-employment Healthcare Benefits

## **Plan Description**

Plan administration. On June 6, 2016, the Millington Municipal Schools Board of Education passed a resolution to participate in the Tennessee School Boards Association OPEB Trust ("TSBA OPEB Trust"). The School funded the TSBA OPEB Trust with an initial deposit of \$50,000. On September 6, 2016 the Millington Municipal Schools Board of Education approved a retiree healthcare plan to be administered by the TSBA OPEB Trust to be effective January 1, 2017. The School administers the Millington Municipal Schools Retiree Benefits Plan ("MMSRBP")—a single employer defined benefit plan that is used to provide postemployment benefits other than pensions ("OPEB").

Management of the MMSRBP is vested in the TSBA Board of Trustees (TSBA Board), which consists of seven (7) members—five (5) appointed by the governing boards of the participating members of the Trust, and the Executive Director and President of the Tennessee School Board Association are an ex-officio members.

Employees who retire from the School and qualify for TCRS Service Retirement under the Tennessee Consolidated Retirement System may be eligible for post-retirement health benefits. Five (5) years of service must be with the School with allowances given to former employees Tennessee Public School Districts if employed by the School on August 8, 2014. New employees are not eligible for benefits if employed after January 1, 2017, unless they worked for another Tennessee public school district prior to January 1, 2017. The employee must be enrolled in a School health insurance plan for one (1) year immediately before the retirement date.

Plan membership. At June 30, 2016, participants consisted of the following:

| Inactive employees or beneficiaries currently receiving benefits | 1   |
|--|-----|
| Inactive employees entitled to but not yet receiving benefits    | -   |
| Active employees   | 184 |
|  |     |
|  | 185 |

Benefits provided. The MMSRBP provides healthcare for retirees and their dependents. Benefits are provided through a third-party insurer, with 25% to 50% of benefits being covered by the plan up to age 65. A \$100 per month stipend is provided to the retiree only at post-65.

Benefits and premiums are set by the Board of Education. The Board is authorized to (1) add, change or end any coverage offered, (2) change or discontinue benefits, (3) establish premiums and (4) change the rules for eligibility

at any time, for any reason.

Contributions. The School establishes contributions based on an actuarially determined rate. The School made a single contribution of \$50,000 in the year ending June 30, 2016. For the year ended June 30, 2017, the School contributed an additional amount of \$200,000. The amount contributed is based on an actuarial valuation and available funds for the year. For the year ended June 30, 2017, the School's average contribution rate was 2.2 percent of covered-employee payroll. Plan members are not required to contribute to the plan.

### **Investments**

Investment policy. TSBA OPEB Trust's policy in regard to the allocation of invested assets is established and may be amended by the TSBA OPEB Trust Board of Trustees by a majority vote of its members. It is the policy of the TSBA OPEB Trust Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. TSBA OPEB Trust's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2017:

| Asset Class   | Maximum<br><u>Allocation</u> | Minimun <u>Allocation</u> |  |  |
|---|------------------------------|---------------------------|--|--|
| Equity investments                                  | 65%                          | 35%                       |  |  |
| Fixed income investments  Cash and cash equivalents | 65%<br>35%                   | 20%<br>0%                 |  |  |

*Rate of return.* For the year ended June 30, 2017, the annual money-weighted rate of return on investments, net of investment expense, was 10.02 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

### **Net OPEB Liability of the School**

The components of the net OPEB liability of the School at June 30, 2017, were as follows:

| Total OPEB liability Plan fiduciary net position                        | \$<br>4,164,892<br>260,113 |
|---|----------------------------|
| Net OPEB liability  | \$<br>3,904,779            |
| Plan fiduciary net position as a percentage of the total OPEB liability | 6.2%                       |

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation as of July 1, 2016, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

| Salary increases            | 3.0%                                     |
|-----------------------------|--|
| Investment rate of return   | 4.25%                                    |
| Healthcare cost trend rates | 8% decreasing 1% per year to an ultimate |
|                             | 5% for 2022 and therefore after          |

Mortality rates were based on the RP-2014 Mortality Fully Generational using Projection Scale MP-2015.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period ending June 30, 2016. The total OPEB liability was rolled forward to June 30, 2017 using update procedures that incorporated the actuarial assumptions.

The long-term expected rate of return on OPEB plan investments was estimated to be 4.25% based on historical returns by asset class consistent with the investment policy.

Discount rate. The discount rate used to measure the total OPEB liability was 2.81 percent. The discount rate is a weighted rate based on the long term rate of return of 4.25 percent and a 2.8 percent rate for 20 year rate for tax-exempt general obligation AA municipal bonds. The discount date assumption has decreased from 4.25 percent to 2.81 percent.

Sensitivity of the net OPEB liability to changes in the discount rate. The following presents the net OPEB liability of the School, as well as what the School's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage-point higher than the current discount rate:

|                            |          | Discount              |    |                 |    |                        |  |  |  |
|----------------------------|----------|-----------------------|----|-----------------|----|------------------------|--|--|--|
|                            | 19<br>—— | % Decrease<br>(1.81%) |    | Rate<br>(2.81%) | 1  | 1% Increase<br>(3.81%) |  |  |  |
| Net OPEB liability (asset) | \$       | 4,497,557             | \$ | 3,904,779       | \$ | 3,354,616              |  |  |  |

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates. The following presents the net OPEB liability of the School, as well as what the School's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point than the current healthcare cost trend rates:

|                    | 6 Decrease<br>6 decreasing<br>to 4%) | Tro<br>(8% | althcare Cost<br>end Rates<br>decreasing<br>(to 5%) | % Increase<br>% decreasing<br>to 6%) |                 |
|--------------------|--------------------------------------|------------|---|--------------------------------------|-----------------|
| Net OPEB liability | \$                                   | 3,649,074  | \$  | 3,904,779                            | \$<br>4,221,605 |

### **Employer Disclosures**

## **Annual OPEB Cost and Net OPEB Obligation of the School**

Annual OPEB cost and net OPEB obligation. The annual OPEB cost and net OPEB obligation for the current year were as follows:

| Annual required contribution (ARC)             | \$        | 374,584    |
|--|-----------|------------|
| Interest on net OPEB obligation                |           | -          |
| Amortization adjustment on net OPEB obligation |           | <u>-</u>   |
| Annual OPEB cost                               |           | 374,584    |
| Contributions remitted for pay-go cost         |           | (41,089)   |
| Contributions remitted for pre-funding         |           |            |
| Increase in net pension position               |           | 333,495    |
| Net OPEB obligation, beginning of year         |           | <u>-</u> _ |
| Net OPEB obligation, end of year               | <u>\$</u> | 333,495    |

|                                      | <br>Three-Year Trend Information |                                     |    |                        |  |  |  |  |
|--------------------------------------|----------------------------------|-------------------------------------|----|------------------------|--|--|--|--|
| Annual Pension<br>Fiscal Year Ending | <br>Annual<br>OPEB Cost          | Percentage of OPEB Cost Contributed |    | Net OPEB<br>Obligation |  |  |  |  |
| June 30, 2017                        | \$<br>374,584                    | 11%                                 | \$ | 333,495                |  |  |  |  |

Funded status and funding progress. As of October 1, 2016, the most recent actuarial valuation date, the plan was 1.8 percent funded on a basis in alignment with GASB Statement No. 45. The actuarial accrued liability for benefits was \$2,852,106, and the actuarial value of assets was \$50,000, resulting in an unfunded actuarial accrued liability ("UAAL") of \$2,802,106. The covered payroll (annual payroll of active employees covered by the plan) was \$9,530,500, and the ratio of the UAAL to the covered payroll was 29.4 percent.

The schedule of funding progress, presented as RSI following the notes to financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial methods and assumptions. Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of future events far into the future. As such, the actuarial calculations of the OPEB plan reflect a long-term perspective. Actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future.

The required contribution rate was determined as part of the October 1, 2016, actuarial valuation using the projected unit credit with linear proration to decrement actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 4.25 percent a year (inclusive of 3.00 percent inflation) compounded annually and (b) mortality rates based on the RP-2014 Mortality Fully Generational using Projection Scale MP-2015. The actuarial value of assets equals the fair market value of the net position held by the OPEB plan. The School's unfunded actuarially accrued liability is being amortized as a level dollar amount on a closed basis.

# 9. Commitments and Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantors cannot be determined at this time although the School's management expects such amounts, if any, to be immaterial Risk Management.

The School is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the School carries commercial insurance. In 2017, there were no material liability claims made by the school and settled claims resulted from these risks have not exceeded commercial in any of the past three years.

The School did not use the services of an attorney during the fiscal year ending June 30, 2017. School management is not aware of any threatened or active legal issues.

# 10. General Long-Term Obligations

### **Bond obligations**

The School has no long-term bond debt as the Board of Education is fiscally dependent on the City of Millington, Tennessee for the issuance of debt for its capital projects.

### Litigation settlement

In January 2014, the County Commission of Shelby County, Tennessee, the City and the School entered a settlement agreement to resolve all claims and contentions between the parties concerning the formation of the

School. As a condition of the settlement, the School agreed to pay the Shelby County Board of Education twelve annual payments of \$230,219 for total of \$2,762,628. During fiscal year 2017, the School made their third payment of \$230,219 and recognized interest expense of \$52,990 using an effective interest rate of 2.89%. As of June 30, 2017, the School has recorded a liability of \$1,822,400 in the statement of net position to reflect the net present value of the remaining eleven payments under this settlement liability. Future payments under the litigation settlement are as follows:

| <u>Year</u>                          |                     |
|--------------------------------------|---------------------|
| 2018                                 | \$ 230,219          |
| 2019                                 | 230,219             |
| 2020                                 | 230,219             |
| 2021                                 | 230,219             |
| 2022                                 | 230,219             |
| 2023-2026                            | <u>920,876</u>      |
| Total payments                       | 2,071,971           |
| Less amount representing interest    | (249,571)           |
| Net litigation settlement obligation | <u>\$ 1,822,400</u> |

### **Notes to Schedule**

Valuation date:

Actuarially determined contribution rates for 2017 were calculated based on the July 1, 2015 actuarial valuation.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Frozen initial liability

Amortization method Level dollar, closed (not to exceed 20 years)

Remaining amortization period 0 years

Asset valuation method 10-year smoothed within a 20.0% corridor to market value

Inflation 3.0%

Salary increases Graded salary ranges from 8.97% to 3.71% based on age, including

nflation

Investment rate of return 7.5%, net of plan investment expense, including inflation

Retirement age Pattern of retirement determined by experience study

Mortality Customized table based on actual experience including an adjustment for

some anticipated improvement

Cost of living adjustments 2.5%

#### **Note - Basis of Presentation**

The accompanying schedule of expenditures of federal and state awards includes the federal and state grant activity of the Millington Municipal Schools (the "School") and is presented on the accrual basis of accounting. The information in the schedule is presented in accordance with the requirements of 2 CFR Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* ("Uniform Guidance"). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the presentation of, the financial statements. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The School has not elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

# Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Board of Education Millington Municipal Schools Millington, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the district-wide financial statements of the governmental activities, each major fund, and fiduciary funds of the Millington Municipal Schools Board of Education ("School"), which are special revenue funds and fudiciary funds of the City of Millington, Tennessee ("City"), as of and the year ended June 30, 2017, and the related notes to the financial statements, and have issued our report thereon dated December 6, 2017. Our report disclosed that the financial statements of the School are intended to present only that portion of the City that is attributable to the transactions of the School. They do not purport to, and do not, present fairly the financial position of the City as of June 30, 2017, the changes in its financial position, budgetary comparison, or where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify year any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

There were no prior findings reported.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# Independent Auditors' Report on Compliance for the Major Program and on Internal Control Over Compliance Required by the Uniform Guidance

Board of Education Millington Municipal Schools Millington, Tennessee

## Report on Compliance for Each Major Federal Program

We have audited Millington Municipal School's ("School") compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect the School's major federal program for the year ended June 30, 2017. The School's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

### Auditors' Responsibility

Our responsibility is to express an opinion on compliance the School's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the School's compliance.

### Opinion on Each Major Federal Program

In our opinion, the School complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2017.

### **Report on Internal Control Over Compliance**

Management of the School is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify year any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
