

## 2022-2023

## ANNUAL BUDGET

For Fiscal Year Ending June 30, 2023

James Griffin<br>Director of Schools

Kristen Turner

Chief Financial Officer

## EXECUTIVE SUMMARY

Millington Municipal Schools is pleased to present our budget for the 2022-2023 fiscal year. This document serves to provide the stakeholders of our district with information relevant to assessing our strategic initiatives and financial goals for the coming school year. Our budget is centered upon fulfillment of our district's primary function-providing the resources and personnel needed for all students to grow from readers, writers and problem solvers into graduates fully prepared for a successful college or career track.

The budget planning process is guided by the strategic goals we have identified to be critical for growth and continued success. These goals are 1) prepare students for tomorrow 2) retain, attract, and develop high quality teachers and leaders 3) establish and maintain safe, high-quality facilities and 4) promote community partnerships and parental support. Millington Municipal Schools remains steadfastly committed to providing quality academic instruction in an environment which provides support for the social and emotional aspects of growth, particularly as we continue to endure the impacts of a worldwide pandemic.

At the end of FY21, EA Harrold Elementary School was decommissioned, resulting in grade band adjustments at the remaining three schools. District enrollment, while dipping slightly during the pandemic, is trending ahead of the last full school year (2018-2019) at approximately 2500 students. The loss of a school building has placed pressure on the remaining three facilities, one of which is more than 50 years old. In recognition of this, as well as the noted uptick in residential development in Millington, the District is pursuing multiple strategic options to address capacity concerns as we enter the eighth year of operations.

The state funding model for education (the BEP) is undergoing a rigorous overhaul this spring at the Department of Education and Tennessee General Assembly. The move from a resource based to a student-based funding model (TISA) will compel us to think differently about the way we allocate dollars and resources to schools. This legislation, although pending at this time, ensures that no district will experience an aggregate reduction in funding for the first year and there will be no impact to maintenance of effort for the first four years, allowing time for adjustment to the new model. The early projections we have been provided show that Millington stands to benefit financially from the new formula, compelling us to deliver the right resources to the individualized needs of the students and families we serve. We are analyzing all elements of this new approach to mitigate significant interruptions or adjustments to instructional delivery and operations.

We are budgeting revenue growth for FY23 based primarily upon the continued infusion of federal relief dollars. ESSER I grant funding will sunset at the end of the FY22 school year, however, ESSER II and III will continue to provide critical financial support through 2023/2024 to address learning loss, graduation readiness, foundational development, instructional technology, and long deferred capital maintenance.

In welcoming revenue growth, we also anticipate accelerated expense increases due to inflationary pressure which will impact the entirety of our supply chain. Medical insurance plan increases effective January 1, 2022, ranged from $2 \%$ to $11 \%$, with the highest increases in the Cigna Open Access plans. Utility rates are forecasted to rise substantially as well as the cost of diesel fuel required to operate our buses, forecasting upwards of $10 \%$ in both areas. We are making sizeable investments in human capital to not only recognize the strong credentials of our highly valued team but also to retain the necessary leverage to compete in a job market starved for quality educators and staff. These investments include step raises for teachers and a $2 \%$ cost of living increase for all employees. In consideration of these dynamics, rigorous management and oversight of all expenses to ensure optimal efficiency and quality in all programmatic and operational aspects will be critical to safeguarding our fund balance into the future.

The district is dedicated to fiscal discipline and transparency to preserve the continuity of this critical asset for decades to come. We are optimistic about the development in Millington and aim to be fully prepared for the impact to the schools of this swift economic and residential growth. We are immensely grateful for the Millington community in its generous support of our work and look forward to forging stronger connections amongst all stakeholders for the ultimate benefit of our children. We are One Millington.

Most Respectfully,

James "Bo" Griffin
Superintendent

## DISTRICT PROFILE

The citizens of Millington voted to create a municipal school district via referendum in July 2013 (City of Millington Charter, Article II, Section 2.02). The Tennessee Department of Education subsequently approved the Millington Board of Education in May 2014 and the district commenced operations in August 2014, assuming responsibility for the operation of four of the five schools within its borders. One of the four schools was decommissioned at the end of the 2020/2021 school year. Board members serve for a term of four years and are elected by citizens. The Board hires a Director of Schools who manages the district.

MMSD Leadership Chart 2021-22

## GENERAL FUND - FY23 REVENUE

The two primary sources of revenue for the district are the BEP (Basic Education Program) funding from the State of Tennessee and local taxes, comprised of property tax, local option sales tax and wheel tax, among others. The Basic Education Program is a resource-based funding model adopted by the State of Tennessee in 1992 to fund districts based on four major components: instruction, benefits, classroom, and nonclassroom.

The allocation of local taxes - set by the Shelby County Commission annually - is based upon an annual calculation of our District's Weighted Full Time Equivalent Average Daily Attendance (WFTEADA), which for the current year is $1.72 \%$. Local option sales tax is collected by Shelby County at a current rate of $2.25 \%$ and allocated based upon the same WFTEADA used for property taxes. The mixed drink tax is collected by the state for the City of Millington and $50 \%$ is allocated to the district.

## GENERAL FUND - FY23 EXPENDITURES

A primary focus for expense management in the coming year will be efficiency. Enhanced rigor will be applied towards review and audit of expenses to mitigate significant anticipated increases in all areas due to inflation and supply chain challenges nationwide. The biggest impact we can make in cost effectiveness, both long and short term, is proper human capital utilization. Our goal of right sizing these resources is a constant moving target requiring our consistent attention and diligence in aligning the ever-growing needs of the district with fiscal capacity. The following pages include budget by department for major instructional and operational areas along with a narrative. All other departments are included in the full detail of General Fund expenditures found at the end of this document.

## REGULAR INSTRUCTION

At Millington Municipal Schools, all students have equal access to a well-rounded, innovative, comprehensive education that includes instruction in academics, arts, languages, career \& technical, wellness, sports, and health while fostering responsibility, leadership, and civic pride. We want our students to be problem solvers, college ready, career ready, and life ready. When students exit Millington schools, we want them to be prepared to face challenges with confidence and the ability to succeed.

Instruction is implemented with strategic attention toward instructional focus, coherence, and rigor. Instructional scheduling throughout the district is designed to ensure students are provided with the requirements for mathematics and literacy. This scheduling and implementation provide the type of pacing in which students can deeply understand the standard(s) being taught using developing concepts in a strategic, well-planned manner and using effective instructional practices.

The instructional focus at the Primary School is foundational literacy and numeracy skills to create a culture of readers and writers who will learn to think critically as they evolve into future problem solvers. Instruction at the Intermediate School continues to encourage reading and math growth while inspiring a passion for learning to enhance academic achievement. Finally, at the Middle High School a variety of courses challenge students to become life-long, innovative learners who are prepared for post-secondary success.

All Millington students have access to high-quality instructional materials including our state approved textbooks and curriculum. We also utilize several supplemental programs aligned to the state standards that support students and ensure learning and understanding. The instructional coaches employed by MMSD also play an integral role in instruction. The coaches serve as consultants and mentors to teachers through conferencing, observing, and reflecting on instructional practice as well as helping them disaggregate student data and supporting instructional practices to meet the needs of all learners.

Instruction is further enhanced by providing ongoing professional development opportunities for teachers and staff. Educator and school leader needs regarding professional development center around support of instructional pedagogy and curriculum. All district, campus, and department based professional learning is aligned with the district strategic plan. Therefore, all opportunities provided are in support of building capacity for high-quality instruction and positively impacting student academic achievement.

Our instructional focus will continue to build upon successes that we have encountered this year. Among these successes is our ACT composite for the class of 2021 which exceeded the state average. We are proud of the fact that we have returned to in-person learning, and our students are thriving and benefitting from that accomplishment. Preliminary projections indicate that we are on track for improved academic achievement on state testing. The district is dedicated in our focus on instruction and excited about the future of Millington schools. Included below are accounts 71110 (Regular Instruction) and 72210 (Regular Instruction Support)

## EXCEPTIONAL CHILDREN \& HEALTH SERVICES (SPED)

As MMSD seeks to distribute resources more equitably and adequately to students with disabilities, in 2022-23 the budget will include additional staffing allocations to meet IDEA compliance based upon students' Individual Education Plans.

Increased professional development that will include training for: Professional school counselors, special education and health services staff, and school social workers. Due to learning loss the department will need to enhance and improve student's academic achievement by purchasing curriculum-based tools which focus on student's deficit areas as well as appropriate transition curriculum to prepare students for post-secondary opportunities.

Included below are accounts 71150 (Alternative Instruction) 71200 (Special Education Program) 72120 (Health Services) 72130 (Other Student Support) 72215 (Alternative Instruction Support) 72220 (Special Education Program Support).

## CAREER \& TECHNICAL EDUCATION

CTE's mission is to provide all students in the Millington Municipal School District with a broad range of opportunities and options in Career and Technical Education courses which are relevant to today's global society. This will enable our students to pursue their career paths and become tomorrow's successful citizens, workers, and leaders. The Millington Career and Technical Educational Department works to support the mission of preparing our students upon graduation to be College Ready, Work Ready, Life Ready.

Students in CTE courses earned over 70 industry credentials last year and we expect that to rise this year with the return to full time in person instruction. The CTE department was the recipient of a Middle School STEM grant that is being focused on strengthening our STEM program in grades 7 and 8 . The Industrial Development Board of the city of Millington also joined as a partner and made a substantial investment into the CTE programs with a focus on STEM.

With the announcement of Blue Oval City locating to West Tennessee, we have met with representatives of the Ford Motor Division to ascertain the type of work skills they will be looking for in their future workforce. We are looking to enhance and reshape our programs to offer our students the most gainful opportunities to earn credits and credentials which will serve them should they choose a career path immediately following high school. We are preparing our students for a strong future in the workforce. Included below are accounts 71300 (Vocational Education) and 72230 (Vocational Education Support)

## INFORMATION TECHNOLOGY

Millington implemented a 1:1 student device program ahead of schedule and in time to seamlessly transition to remote learning during the pandemic. This will allow $100 \%$ of the student population to have access to future state online testing. We completed the replacement of outdated classroom projectors in every classroom in the district with mobile interactive displays. Originally planned to open new opportunities for collaboration and engagement in the classroom, they also enabled remote learners to view and participate in board work. We are implementing a sustainable phased replacement plan to keep this classroom technology up to current standards and thus give our students the technological skills they need to compete in the modern workforce. We are in the process of vetting learning management services that will provide a unified online learning platform for all students. This will simplify access to online coursework and grades for students, family, and teachers. We are developing new professional development for our teachers to ensure that they can use these new classroom technologies to the fullest. Shown below is account 72250.

## HUMAN RESOURCES

In the 21-22SY, social workers were hired for each of the three schools to provide additional support for the social/emotional impacts of the pandemic. Additional support staff (clerical, education assistants etc.) were hired to aid schools in re-opening to mitigate teacher burn-out and the additional needs that students are displaying as they transition back into full time in-person learning. A covid testing coordinator was hired to provide covid testing on site to both students and staff. Substitute teaching services were transitioned from an external company to the district to provide higher quality substitutes and focus on staffing individuals with strong community ties. We introduced masters pay for teachers and brought the district up to a $\$ 15$ minimum wage, both of which greatly assisted in recruiting qualify staff. For the 22/23 SY, all certified matrices for teachers, counselors, and school-based administrators will receive a step increase and all staff will receive a $2 \%$ cost of living adjustment. FY23 staff salary averages and counts are provided below.

## FISCAL SERVICES

The Finance team, including payroll and accounts payable, will continue to focus on financial fidelity and transparency in delivering quality and timely information to our stakeholders so that they may make the most educated decisions for the ongoing benefit of the district. We are seeking a new platform for management of our financial system in the hopes that we can better meet this commitment in terms of reporting and features allowing more engagement and collaboration amongst all teams throughout the district. Shown below is account 72510 .

## OPERATIONS \& MAINTENANCE

The operations and maintenance team will focus on sustaining and fortifying high qualify facilities for our students, staff, and community. We are consistently seeking cost and operational efficiencies without sacrificing quality and are looking to increase the frequency of our property walk throughs and evaluations to ensure the timely address of deficiencies and assist with safety and risk mitigation. We are assessing all equipment and inventory to streamline the process of phased replacements with the best equipment we can procure to meet the needs of our students and staff. We are developing a business plan to explore the possibility of bringing custodial operations in house. Shown below are accounts 72610 (Operation of Plant) and 72620 (Maintenance of Plant).

## TRANSPORTATION

We are grateful for our partnership with Durham Bus Services in providing our student transportation. We faced challenges at the beginning of the current school year and feel that Durham responded appropriately to properly execute its contract with respect to staffing the proper routes in a timely manner. We acknowledge a contracted 4\% increase for the coming school year and look forward to the renegotiation of this critical student service contract in the coming year. Shown below is account 72710.

## FEDERAL PROJECTS FUND

The Office of Federal Programs is responsible for the oversight and compliance of federal and state grants coming into the district. Traditionally, our largest grant is the Consolidated Title Grant which includes Titles I, II, III, IV, and IDEA (Individuals with Disabilities Education Act).

## Title I

Funds received under the Elementary and Secondary Schools Act are allocated to all three Millington Schools to provide supplemental instructional services to students. The services include instructional facilitators, instructional coaches, intervention teachers, paraprofessionals, online researched based interventions/assessments, technology, and instructional materials. The funds provide student tutoring services beyond the regular school day. Title I funds are also used to provide parent engagement opportunities and staff development for teachers.

Title II
Funds are used to ensure that all teachers in core academic subjects are highly effective. Staff development is provided for school level teachers and administrators. Literacy Coaches are funded through Title II to support literacy instruction.

Title III
Funds are used to provide supplemental instructional supplies, software, and materials to support the supplemental scientifically based instruction to increase English proficiency and student academic achievement of eligible English learners. Funds are also utilized to provide staff development for EL teachers and parent engagement activities.

Title IV
Funds are used to support the goals of "Well-Rounded Educational Opportunities," "Safe and Healthy Students," and "Effective Use of Technology".

IDEA
The Individuals with Disabilities Education Act (IDEA) ensures that all children with disabilities are entitled to a free appropriate public education tailored to meet their unique needs and prepare them for further education, employment, and independent living. In practice, IDEA is composed of six main elements: Individualized Education Program (IEP); Free and Appropriate Public Education (FAPE); Least Restrictive Environment (LRE); Appropriate Evaluation; Parent and Teacher Participation; and Procedural Safeguards. Additional components tied in include confidentiality of information, transition services, and discipline.

In summary, over the past two years, the federal projects fund has experienced an
unprecedented infusion of federal dollars to help combat the Covid-19 pandemic. The Elementary and Secondary School Emergency Relief (ESSER) funds have allowed for learning loss and deferred maintenance issues to be addressed, among others. With over $\$ 11$ million dollars between ESSER 1, 2, 3 we have accomplished a lot, and have more projects ahead of us before all funding eventually sunsets in 2024. Here are just some of the accomplishments made possible through this funding:

- Interactive Smart Display boards in every classroom in our three schools
- Additional Educational Assistants at our schools to support learning loss caused by the pandemic
- Social Workers at all three schools
- Credit Recovery Teacher for Millington Central Middle High School
- Graduation Coach for Millington Central Middle High School
- High dosage-low ratio tutoring programs for all three schools
- HVAC system replacement for all three schools
- Roof Replacement at Millington Intermediate School
- Fence project at Millington Intermediate School
- Fence project at Millington Central Middle High School

## FEDERAL PROJECTS FUND - FY23 REVENUE \& EXPENDITURES

The significant reduction in revenue in this fund is attributed to the expected phaseout of ESSER funding.

## SCHOOL NUTRITION FUND

The Millington Municipal School Nutrition Department operates in accordance with the state and federal requirements to provide nutritious, appealing, enjoyable, and well-balanced meals that promote healthy habits for lifelong nutrition and wellness practices for our students and staff.

The main goal is to provide the right mix of fruits, vegetables, dairy, protein, and whole grains to allow students to perform their best. With this being in mind, our focus is to increase district wide participation in breakfast to $60 \%$ and lunch to $80 \%$ while working to improve efficiency, customer service and quality to students and staff.

Millington Municipal Schools Nutrition Department has provided breakfast and lunches to students under the Community Eligibility Provision (CEP) since school year 2014-2015. Under this provision, MMSD can provide breakfast and lunch at no cost to the students.

All schools in MMSD participate in the USDA child nutrition programs which include the National School Lunch Program, the National School Breakfast Program, and the After-School Snack Program. The After School Snack Program offers a snack for any student staying after school for tutoring, clubs, and sports.

We offer the Fresh Fruit and Vegetable Program at Millington Primary School and Millington Intermediate School. This is a USDA Grant that provides an after-lunch snack (a fruit or vegetable) to all students 2-3 days a week.

Since 2020 we have been providing summer meal pick up service to the community. With this, families can receive 7 days' worth of breakfasts and lunches. All schools will receive new dishwashers in the summer of 2022. We always strive to educate and train our staff with professional development. Two of our managers have recently become Level 1 Certified in School Nutrition. We have 14 staff members attending the School Nutrition Annual Conference in the summer of 2022 and one of our managers will be attending the USDA Produce Safety University in May 2022.

## CAPITAL PROJECTS

For FY23, the capital projects budget will be focused on continued implementation of the strategic plan in priority order. Revenues for capital projects have historically been limited to the district's WFTEADA (weighted full time equivalent average daily attendance) allocation - currently $1.72 \%$ based on total allocation across all municipalities - from the Shelby County Capital Improvement Plan. Millington will receive approximately $\$ 1.6$ million of the projected allocation of $\$ 94$ million. This is higher than recent years due to increased county debt funding and, to a lesser degree, the continuation of enhanced federal funding. It should be noted here that, although our allocation is set, payments more than $85 \%$ of the allocation are restricted based on the spending of Memphis Shelby County Schools and is therefore payable only as MSCS spends down their CIP funds. This is a planning consideration which affects our cash flow in the short term.

With respect to existing assets, we do not anticipate significant modifications or additions. We intend to proceed with securing USDA funding for our larger initiatives which includes increasing capacity at the Central Middle High School and renovation opportunities at Millington Intermediate School. In recognition of continued, significant inflation which may price many of our priorities out of feasibility, we intend to identify those projects which can be achieved with minimal inflationary impact and defer all others to the degree possible. We will also continue to review and reassess our capital plan and keep the board informed of major shifts in strategy as changes dictate.
